ISSHAN MARWAH

Technical Art and Game Development

+1 905 243 7529 | isshanmarwah@gmail.com | Portfolio: isshan11.github.io

Game Development and Interactive Media student creating Unreal Engine tools, gameplay systems and 3D assets, with internship experience in technical art and test automation.

EXPERIENCE

Lakshya Digital May 2026 - Aug 2026

Game Art Intern - Unreal Engine / Technical Art

- Independently built a playable first-person shooter prototype in Unreal Engine 5 using C++ and Blueprints, including movement, weapons and combat feedback.
- Created enemies that detect the player, select cover and reposition using Behavior Trees and EQS.
- Developed procedural environment and asset cleanup tools; integrated animation, visual effects and destructible objects.

Virgin Mobile UAE 3-month internship

Technical / Automation Intern

- Built Python/Selenium website tests across 21 customer journeys, checking content, navigation and load times.
- Produced CSV reports, screenshots and Jira Xray results; validated APIs and used GitLab workflows.

SELECTED PROJECTS

Artist-Facing Asset Cleanup Tool | Unreal Engine, Blueprints

- Built an editor tool for artists to review assets unused by the open level, delete selected items and remove empty folders.

Procedural Ecosystem Generator | Unreal Engine, PCG, Blueprints

- Created a tool to place trees, grass and rocks using terrain rules, with controls for density, variation and road exclusions.

Vector of Fear | Unity, Blender, Substance 3D Painter

- Created 3D models, textures and animations; integrated them in Unity with cutscenes and effects built in Shader Graph and VFX Graph.
- Team award: 2nd-Year Ubisoft's Choice at Ontario Tech GameCon; featured at Level Up Student Showcase 2026.

End of the Stickin' World | Unity, C#

- Programmed the complete game and integrated art, sound and levels into a finished playable experience.

TECHNICAL SKILLS

Engines and code: Unreal Engine 5, Unity, C++, C#, Python, Blueprints, Git/GitLab

Technical art: PCG, Editor Utility Widgets, Shader Graph, VFX Graph, asset optimization

3D art: Blender, 3ds Max, Substance 3D Painter, modeling, UVs, texturing, animation

EDUCATION

Ontario Tech University 2024 - Present

Bachelor of Information Technology in Game Development and Interactive Media | GPA: 3.86
